

MAXIMA
Large-area pendant luminaires

MAXIMA – a new series of large-area pendant luminaires, available with tunable white technology. The high lumen output and large scale of these luminaires unlock new and creative lighting design options in many areas of architecture.
Provided with electronic driver.

White high density polyethylene diffuser
Aluminum housing and canopy, white finish · Four steel wires
Transparent connecting cable

LED color temperatures: 2700 K, 3000 K, 3500 K, 4000 K

Tunable white color temperature range is adjustable from 2700 K to 6500 K via DALI control protocol

BEGA can supply you with suitable LED replacement modules for up to 20 years after the purchase of LED luminaires – see page 186. Further LED technical data including luminous flux, CRI, service life, and dimming and electrical characteristics are provided on the individual luminaire specification sheets, available at www.bega-us.com.

NRTL listed to North American Standards, interior use only
Refer to page 185 for more information

Ceiling and wall luminaires, see page 82.
